As a rule, this allows each donation to be quadrupled – EUR 100 of donations become EUR 400 of project funding.

With your donations, we are in the position to apply for further funds from public grant providers such as the Federal Ministry for Economic Cooperation and Development (BMZ), the Federal Foreign Office (AA), the European Union (EU), and the United Nations and to win them over with our project ideas.

Due to the high demand for funds, we are in the position to apply for further funds from public grant providers such as the Federal Ministry for Economic Cooperation and Development (BMZ), the Federal Foreign Office (AA), the European Union (EU), and the United Nations and to win them over with our project ideas. In the rule, this allows each donation to be quadrupled – EUR 100 of donations become EUR 400 of project funding.
WHAT WE ACHIEVE

Since its establishment in 1962, Welthungerhilfe has funded 8,927 international projects to the tune of around EUR 3.53 billion, including 6,383 self-help projects.

Through its 410 overseas projects in 38 countries, Welthungerhilfe supported about 11.8 million people—men, women, and children—in 2017 alone. In real terms, that means: Many people now harvest more and can therefore improve their diets. They now have access to clean drinking water or toilets, which leaves them less susceptible to illness. Others are earning or producing more and can begin an education. For the children, Welthungerhilfe’s support means a chance of improved physical and mental development.
