

Welthungerhilfe ([www.welthungerhilfe.de](http://www.welthungerhilfe.de)) is one of the largest and respected private organisations in the field of development cooperation and humanitarian aid in Germany. It carries out projects in 39 countries and campaigns for fairer cooperation with developing countries. If you are prepared to dedicate yourself to carrying out projects under sometimes difficult conditions and you match the requirements set out below, we look forward to receiving your application for the following opportunity/

### **Feasibility study/-analysis Consultant (m/f)**

This opportunity concerns a short-time assignment of about 42 days working for Welthungerhilfe in a freelance capacity.

#### **Objectives and responsibilities:**

Your most important duties are as follows:

- Conduct the internal organizational diagnosis of the project partners and analyze the environment or the state of the seed circuit in CAR;
- Conduct a SWOT analysis (strengths, weaknesses, opportunities and threats) of seed multiplication and extension in CAR;
- Conduct a risk analysis of the project;
- Conduct an analysis of the project's constraints;
- Meet the project stakeholders: MADR, ACDA, ICRA, REPROSEM and target population (beneficiaries) to formalize the situation at the beginning of the project: are the stakeholders operational? if not why not? What are the relationships between these actors in the different project areas?
- Assess the training needs of partners: ICRA, ACDA, MADR and REPROSEM
- Propose a list of contacts (university, research centre, NGOs) that can be used as a reference during the execution of the project
- Inventory of the country's plant genetic resources at the ICRA level and identify needs for the acquisition of new varieties and their maintenance;
- Studies on the producer environment (value chain), typology of farmers' associations, etc.
- Propose a strategy for setting up a sustainable system for the production, marketing and use of improved seeds (access for poor households);
- Show the different barriers (financial, technological) that would hinder the project of production and multiplication of improved seeds.
- Show the marketing opportunities for improved seeds produced at each level of the seed multiplication chain;
- Demonstrate the feasibility and effectiveness of the project approach in seed production, multiplication and dissemination.
- Produce a report in French

#### **Your qualifications will include:**

- proven experience in carrying out feasibility studies of projects, preferably in the sector of seed multiplication.
- experience in multi-methodological evaluation approaches of development projects and preferably feasibility studies -analysis.
- experience with governmental and non-governmental organisations, especially in Food security and seed multiplication centers
- very good oral and written communication skills in French
- proven language skills: fluent in French (orally and written). Knowledge of English would be an advantage. Female candidates are strongly encouraged to apply.
